IRRIGANA NEWS

The ladies of the U.P.W.A. met at the home of Mrs. Colebach on Thursday. The afternoon was spent in sewing for the suffering families of South Alberta, afterwards a dinner lunch was served by Mrs. Colebach. The next meeting is to be held at the home of Mrs. Heisterkamp.

On Monday evening a reception was held by the members of the I.O.O.F. for Mr. and Mrs. Wm. Wess. A very interesting programme was provided for the occasion.

A hockey team is being organized in Irricana. The team will compete with, and we hope it will defeat, teams of neighboring villages.

Owing to the severe cold spell the T.F.A. meeting that was to be held Saturday, was postponed.

We are sorry to report that Mrs. Wm. Elliott has been ill with a severe cold for some time.

The Provincial Government trials of instruction was in the village on Wednesday last. Large crowds attended all the lectures. Your correspondent did not get to the morning lecture. In the afternoon there were several lectures: one on basic types of hog, one on dairying and one on the types of animal for farming. Mr. Carlyle, the head of this department for the government, thought best to have a good strong flow of milk rather than to sacrifice production for the sake of greater production. He also thought it well for those who wished to keep the male calves for beef, that the short horn breed was the best, but said a farmer should keep the grade of animal must be careful to keep the proper type of dairy short horn.

There was much discussion on the question of ensilage and silos. Mr. Carlyle advised chain construction for preservation of ensilage. He advised those who are one of the less expensive. Information as to how to construct same would willingly be furnished by the Department of Agriculture. Mr. Carlyle, as did the other lecturers, gave much good advice to the local farmers which was much appreciated. Your correspondent listened more particularly to Mr. Carlyle as we were more interested in the dairy branch than either sheep or hogs. In the evening there were lectures given, one on the school of agriculture, another on the making of butter and also on handling and feeding cream. There were also moving picture demonstrations which were much appreciated by the large audience which packed the demonstration car to the limit.

Several reels of comedy were run off to please the children. They certainly succeeded. In all a very pleasant and profitable day was spent.

Edmonton, Alta.—Approximately 60,000 men were placed in employment by the Alberta Government between during the winter months. 76,732 applications for work were received, according to the annual report issued by A. W. J. G. Gillett, director of the board. The percentage of the men who applied for work and who were placed was 74 1/2 per cent, as compared with 80 per cent in 1920.

Calgary, Alta.—Out of 691 cars of wheat inspected here in November last, 462 were graded No. 1 hard and No. 1 Northern, the two highest standards known to the trade, and the balance was all of contract quality.

Vancouver, B.C.—A fox ranch has been started by Dr. J. J. Gillett at Merritt, Southern British Columbia. It is said to have purchased "kix" of foxes in Prince Edward at a cost of \$100,000 for foundation stock.

M.D. Bow Valley

The final meeting of the present Council of M.D. Bow Valley was held at the Municipal Office, Strathmore, on Thursday last, Reeve Shreeves presiding. Councillors present were Messrs. Lauson, Wheeler, Groves and Chamberlain.

District Highways
The Secretary reported having sent to the Provincial Public Works Department a report showing \$228,777 to have been spent on work on District Highways, and asking for a contribution under the Highway Act.

The matter of diversion caused by irrigation canals was also taken up with the Department.

Expenses of Calgary Hospital Scheme
In connection with expense charged to the district in reference to the defunct Calgary Hospital District scheme it was decided to ask for an itemized account of the expenditure and to bring the matter before the annual meeting on February 20.

The report of the audit of the Municipal books made by Hamblin & Co. was adopted.

Strathmore Hospital
A statement from Strathmore Hospital Board appeared before the Council and explained the present financial situation of the hospital, caused by jumping patients. Rev. T. Phillips, the secretary, gave details of the receipts and expenditures throughout the year.

Reeve Shreeves congratulated the Board on having come to the end of the year with so small a deficiency. The Council decided to pay the balance of the patients from within the Municipality whose bills had not been met.

Authority was given to borrow \$10,000 for Municipal purposes and \$5,000 for school purposes.

A letter was read from the Department of Municipal Affairs stating that it was the intention to amend the Municipal Act by striking out the requirements that taxes must be paid as a condition to voting at elections.

A letter of thanks was received from the Salvation Army for a donation of \$100 made to the Municipality.

A petition was received from six ratepayers asking that the street be resurfaced. The cost was estimated at \$12,000. It was arranged by the Canadian Pacific Steamships Ltd. The carcasses of the following animals were received for the service rendered.

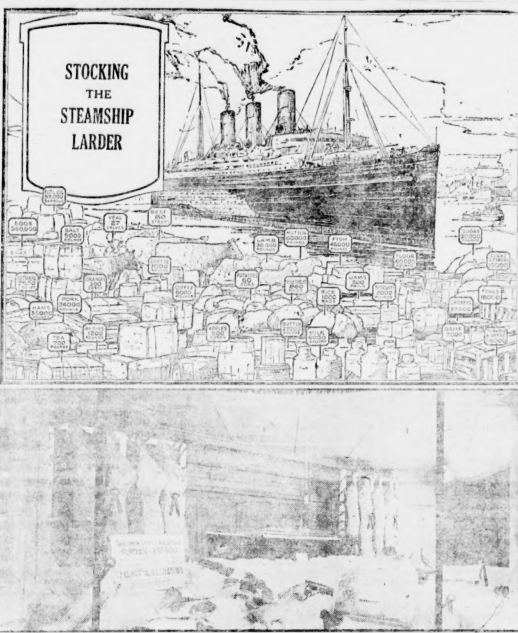

It was decided to submit proposals to the ratepayers at the same time as the annual election.

A petition was read from twenty-three ratepayers asking that the street be resurfaced. The cost was estimated at \$12,000. It was arranged by the Canadian Pacific Steamships Ltd. The carcasses of the following animals were received for the service rendered.

It was decided to submit proposals to the ratepayers at the same time as the annual election.

is also a game will be raffled. You are invited to come and try your luck.

NAMAKA NEWS

The U.P.W.A. will meet in the L.O.O.F. Hall on Saturday, February 11th. All members are requested to attend. Special business report on convention.

We regret to announce that Mr. H. Brown was slain last night at Calgary Hospital on Saturday. We understand it is a repetition of his old trouble caused from an accident, and wish him a speedy recovery.

Mr. J. M. McIntosh was a business visitor to Calgary last week. Mr. Shoolster Sr. was a visitor at Harry's ranch for a few days.

Namaka annual school meeting was held in the school house on Monday last when E. C. Waite, whose term of office expired was re-elected.

Mr. Ted. Harlow well known in the Calgary district, is in the Holy Cross Hospital, at Calgary, seriously ill with pneumonia. On Saturday he was reported as being very low.

Mr. and Mrs. W. L. Brown returned from their trip to the coast on Monday last. Since when Mrs. Brown has been laid up with a bad cold.

Mr. J. Stinson of Medicine Hat, and his wife were visiting with Mr. and Mrs. L. E. Stinson over the weekend.

NIGHTINGALE NEWS

Amongst those who took in the U.P.A. Convention and Winter Carnival at Calgary last week were Mr. and Mrs. William Otto, Mr. and Mrs. G. Walker and Mr. and Mrs. Ryves.

Last year the trustees of the Valley Gardens School purchased a dwelling house for their teacher. This year it is their intention to put a recent foundation under it and fix it up in first class order if by doing so they can get the Government grant. To get this grant it is necessary to put up a house worth at least \$1,000 and to have grounds of at least five acres. It will be necessary to buy another two or three acres to meet these requirements. It will be money well spent, as a good house and good garden will be a great attraction for a good teacher.

We are glad to hear that Mr. L. Connor is quickly recovering from his operation for appendicitis.

At the next meeting of the T.F.A. a report of the Horticultural Show Committee will be presented. The show will probably be held again here. Mr. J. Cameron, Jr., has already had valuable prizes from the Campbell Floral Co. of Calgary, and through them has secured that Nightingale can grow the finest vegetables, but did you know that Nightingale people took all the prize prizes for fat poultry at the recent exhibition at Calgary?

The Nightingale Fair is being put on a proper business basis. The trustees have agreed that the best thing to do is to incorporate and incorporation is being proceeded with. As soon as it is incorporated a election of officers will take place.

Don't forget the U.P.A. social evening next Friday. The show stand early as not to miss anything.

The wheel drive was continued at the Valley Gardens school last Friday night. The drive is being continued through the season. When it is finished good prizes will be presented by the association.

M.D. Bow Valley

The final meeting of the present Council of M.D. Bow Valley was held in the Municipal office, Strathmore, on Thursday last, Rev. Skene presiding. Councillors present were Messrs. Lauson, Wheeler, Groves and Chamberlain.

District Highways
The Secretary reported having sent to the Provincial Public Works Department a report showing \$242.75 to have been spent on work on District Highways, and asking for a contribution under the Highway Act.

The matter of drainage caused by irrigation canals was also taken up with the Department.

Expenses of Calgary Hospital Scheme
In connection with expense charged to the district in reference to the defunct Calgary Hospital District scheme it was decided to ask for an itemized account of the expenditure and to bring the matter before the annual meeting on February 29.

The report of the audit of the Municipal books made by Humblin & Co. was adopted.

Strathmore Hospital
A delegation from Strathmore Hospital board appeared before the Council and explained the present financial situation of the hospital, caused by increasing patients. Rev. T. Hall, the secretary, gave details of the receipts and expenditures throughout the year.

Since reorganization the Board on having come to the end of the year with a small a deficiency. The Council decided to pay the recognition of the patients from within the Municipality whose bills had not been met.

Authority was given to borrow \$25,000 for Municipal purposes and \$25,000 for school purposes.

A letter was read from the Department of Municipal Affairs stating that it was the intention to amend the Municipal Act by striking out the requirements that taxes must be paid as a condition to voting at elections.

A letter of thanks was received from the Salvation Army for a donation of \$10 made by the Municipality.

Petition to amend the Municipal Act was received from six teen ratepayers asking that the Ward By-law be revoked, as the cost was too great for the service rendered.

It was decided to submit proposal to a vote of the ratepayers at the same time as the annual election.

A petition was read from twenty-three ratepayers asking that a vote be taken on a proposal to reduce the municipality into six districts, each district to send its own representative to the Council. It was decided to submit this to a vote of the ratepayers at the time of the annual election.

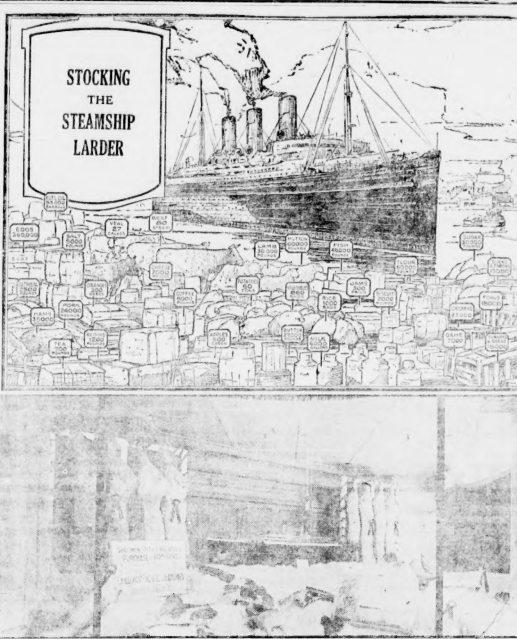

Reducing Assessment
Figures were submitted by the secretary showing the assessment of Bow Valley Municipality to be higher than adjoining municipalities, and it was decided to call the attention to the Department of Municipal Affairs to this.

A number of accounts were passed for payment.

Vancouver, B.C.—The amount of Canadian wheat booked for shipment via the Panama Canal to the United States for the month of December, 1921, was approximately 2,600,000 bushels all of which was shipped in bulk and all of contract quality.

The quantity will be doubled by the end of the season, but a large volume could not be handled through the port in bulk unless there is accommodation be increased, which may be done before the next season.

Montreal, Que.—Export of cattle and sheep from the port of Montreal for the season of January 1921 are reported as follows: Liverpool, 9575 cattle and 1468 sheep; Glasgow, 8519 cattle and 1468 sheep; Lark cattle Manchester, 916 cattle; Newcastle, 76 cattle, making in all a total of 21,362 cattle and 2,661 sheep, according to an official statement.

Exhibition in Montreal of steer carcasses weighing 200,000 lbs. and game, to be used on the winter routes to the Mediterranean and West Indies by the Canadian Pacific Steamers, "Empress of Scotland," "Empress of France" and "Empress of Britain."

Recently prize beef was placed on exhibition in Amy's window, near the Alexander Street, Montreal, purchased at the Toronto Christmas show for use on the forthcoming cruises of the C.P.S.I. Steamers "Empress of France," "Empress of Scotland," and "Empress of Britain." It was arranged by the Canadian Pacific Steamship Ltd. The carcasses, all Canadian raised stock, had an average weight of 1750 lbs. For three cruises the requirements were approximately 175,000 pounds, or in other terms 235 choice steer carcasses with a dressed weight of 750 lbs. each. The turkeys, chickens, capons, ducks and stabbings have been specially fattened for the particular requirements of the cruises, and its cold storage stock of any kind is to be used. The different kinds of poultry are of size of uniform weight and class.

Potatoes	60 tons
Turnips	60 tons
Carrots	7,500 lbs.
Cauliflowers	250 lbs.
Celery	250 lbs.
Cucumbers	50 lbs.
Calabash	50 lbs.
Egg Plant	50 lbs.
Tomatoes	500 dozen
Onions	7,500 lbs.
Lettuce	500 lbs.
Spinach	500 lbs.
Fennel	500 lbs.
Fish, assorted	40,000 lbs.
Apples	500 cases
Bananas	1,500 lbs.
Guavas	100 cases
Lemons	45 lbs.
Oranges	300 lbs.
Pears	5,000 lbs.
Grapes	5,000 lbs.

In addition to these quantities, special fruits, and tropical delicacies will be purchased at different ports on the cruises.

Milk	4,000 gallons
Cheese	7,500 lbs.
Cream	8,000 lbs.
Coffee	5,000 lbs.
Sugar	50,000 lbs.
Flour	60,000 lbs.

ARDENODE NOTES

Friday last Mr. and Mrs. W. G. Wray, Mr. and Mrs. E. P. Thompson and Mrs. J. Galpin, Mr. and Mrs. Dockery, Clifford Ward and Miss Kenpatrick were the well attended guests at the home of Mr. and Mrs. John Taylor. At 7 p.m. the violins were seated at a table laden with good food numerous to name. The evening was spent in playing interesting games, "sometimes bringing forth bright ideas." Tea was served at 12, afterwards a company departed, all vowing an enjoyable evening spent.

Mrs. Rustad, Norway Farm, was taken to the General Hospital, Calgary, on Saturday, and underwent an operation the following morning. Due to lack of time and the elaborate nature of the U.F.A. delegate, the meeting on Saturday 29th, the U.F.W.A. decided to carry their business over and discuss of same on February 4th at 2:30 p.m. in the headquarters of the Service Berry School. Come and help us outline our work for the coming year. A white dress will be held in the Service Berry School, February

NAMAKA NEWS

The U.F.W.A. will meet in the I.O.O.F. Hall on Saturday, February 4th. All members are requested to attend. Special business report on convention.

We regret to announce that Mr. H. B. Brown was again taken to Calgary Hospital on Saturday. We understand it is a repetition of his old trouble caused from an accident, and wish him a speedy recovery.

Mr. J. M. McIntosh was a business visitor to Calgary last week. Mr. Shoultz Sr. was a visitor at Harry's ranch for a few days.

Namaka annual school meeting was held in the school house on Monday last when E. C. Watts, whose term of office expired was re-elected.

CARSLEND NOTES

Mr. Ted. Bartow well known in the Carseland district, is in the Holy Cross Hospital, at Calgary, seriously ill with pneumonia. On Saturday he was reported as being very low.

Miss Atkinson, of the school staff, was laid up with quinsy the early part of last week, and missed a couple of days at school.

A number of Carseland folks took in the concert at the Calmthill school on Friday last, all of whom had a good time. The proceeds were in aid of the piano fund.

There will be no service at the Carseland church last Sunday, and not till further notice.

The Ladies Aid and then P. B. Club held a joint meeting in the church on Thursday afternoon. Mrs. P. B. Cook was a guest at Mrs. P. T. Cook, who is leaving to reside in Dalemead. The church was well filled with ladies from all parts of the community. On behalf of the ladies present, Mrs. P. B. read an address and made a presentation to Mrs. Cook in appreciation of the part she has played in the various activities of the community.

Mr. and Mrs. W. L. Brown returned from their trip to the coast on Monday last. Since when Mrs. Brown has been laid up with a bad cold. Mr. J. Simson, of Medicine Hat, and his bride were visiting with Mr. and Mrs. E. L. Simson over the weekend.

NIGHTINGALE NEWS

Amongst those who took in the U.F.A. Convention and Winter Carnival at Calgary last week were Mr. and Mrs. William Olin, Mr. and Mrs. G. Walker and Mr. and Mrs. Ryves. Last year the trustees of the Valley Gardens School purchased a dwelling house for their teacher. This year it is their intention to put a cement foundation under the lot and to lay in first class lumber if by doing so they can get the Government grant. To get this grant it is necessary to put up a house worth at least \$1,000 and to have grounds of at least five acres. It will be necessary to buy another two acres of land to meet these requirements. It will be money well spent, as a good house and good garden will be a great attraction for a good teacher.

We are glad to hear that Mr. L. Connor is quickly recovering from his operation for appendicitis.

At the next meeting of the U.F.A. a report of the Horticultural Show Committee will be presented. The show will probably be held again this year. Mr. J. McIntosh Jr. has already loaned valuable prizes promised from the Campbell Floral Co. of Calgary, and Burnside. Everybody knows that Nightingale can grow the finest vegetables, but did you know that Nightingale people took all the principal prizes for their garden at the recent exhibition at Calgary?

The Nightingale Hall is being put on a proper business basis. The trustees are to be in charge of the hall and to do so in incorporate and incorporation is being proceeded with. As soon as it is incorporated an election of officers will take place.

Don't forget the U.F.A. social evening next Friday. Be an hand early as we are to have a good time.

The winter drive was continued at the Valley Gardens school last Friday when ten more hands were played. This drive is being continued all winter long. When it is finished good prizes will be presented by the entertainment committee.

Given under my hand this 30th day of January, 1922.

M. TUOENE SLV, Returning Officer

CAN THE DEAF BE MADE TO HEAR?

This question can be answered both ways. If the deafness is due to a curable cause, success is general if the sufferer persists in the use of Catharine's Ear Remedy and thereby drives Catharine out of the system. For many years the deafness of the ear, the soothing vapors of Catharine relieve the inflammation, destroy the seeds of Catharine and thereby allows nature to reassert herself. For many years the deafness, pains over the eyes, plugged nostrils and other symptoms associated with Catharine, use Catharine. You'll be more than pleased with the quick improvement in your condition. Two months' treatment. One Dollar sold everywhere, or the Catharine Co., Montreal.

The Walls Of Jericho

Bible Has Been Sustained by Late Discoveries

The truth of various parts of the Bible narrative was demonstrated by Dr. A. T. Schofield, of the British Royal Service Institution in London, on "Recent Discoveries in Palestine." The story of the fall of the city was narrated twenty years ago by Professor Huxley, who said that it could not be true because nowhere around the Lake of Galilee did the wall run directly down to the water. But Dr. Schofield claimed that he had seen and photographed the foot of which was actually in the water.

How Joab captured the Jebusite stronghold of Zion in the time of David, was explained by a recent discovery. This stronghold had held out for 400 years from the days of Joshua, and it was told that Joab got up by a gutter and took it. No one knew what this gutter was until one of our Royal Engineers, bathing in a pool at the foot of the precipitous rock of the stronghold, discovered a tunnel which led up through the heart of the rock to the top of the hill.

As to the story of the walls of Jericho falling down after Joshua's host had walked round it for seven days, he said the top of the old wall had been found in the ditch which formerly surrounded the city on the side of the wall. Dr. Schofield's explanation was that the walls, built out of sun-dried clay, were pushed outward by the pressure of people within the city rubbing to learn the meaning of the mighty shout which the Israelites gave on the seventh day of their penitential.

A simple explanation of the drying up of the Jordan was afforded by the fact that a short distance above Jericho the river detaches from a narrow gorge where to this day there are frequent landslides which temporarily block the river and leave the bed dry down to the Red Sea.

Another question dealt with was: Where did Elijah get the water with which to feed the poor he built on Carmel when he contended the priests of Baal? The answer was, there was a spring of water on top of the mountain, which never had been known to run dry in the memory of man.

Change Your Mind

Men should Alter Ideas to Meet Conditions

"Lloyd George," said a Chicagoan, "made a good speech at a dinner we gave him in London last season. 'Lloyd George said he was often accused of being inconsistent, of changing his mind. 'Well, he went on, 'men change their shirts, don't they? We rather admire them for that. It's hygienic.'"

"So with the mind. As conditions change, the mind must be changed to conform with them. Blame the man who never changes his mind. How stale and suited to every such a man's mind must be! He who changes his mind to harmonize with circumstances though, is spiritually clean and fresh, is living according to the laws of spiritual hygiene."

Necklace Once Meant Disgrace

The necklace, now an ornament, was formerly something that was a badge of disgrace, worn only by slaves as a symbol of their servitude. The possibilities of the necklace for decorative purposes caused it to lose its servile significance and become an article of wear.

The capture is reported at Long Lac, east of Port Arthur, of a beaver with a white skin from behind the forelegs to the middle of the body the rest brown and black. This is to be sent to London for exhibition purposes.

The chief difference between the human hand and that of the higher apes lies in the thumb, which is always shorter in the ape.

Unsatisfactory Trade Conditions

Changes Necessary in Order to Adjust Adverse Exchange

Examination of Canada's trade figures brings out a number of peculiar circumstances. First of all, the figures demonstrate that we are buying too much from the United States in comparison with their purchases from us. Secondly, while our sales to the United States are in a measure satisfactory, we are not buying enough from the foreign countries that buy from us. Thirdly, speaking, this results in two sets of adverse conditions. The amount we purchase from the United States being too large results in depreciation of the Canadian dollar there. We must equalize our purchases to the basis of what they buy from us, so only by that means can the adverse exchange be adjusted. Another condition is that the ships of the Canadian Merchant Marine are at present returning from foreign ports with inadequate cargoes. It is not sufficient to load ships one way only. Returns cargo is necessary to the economical operation of ships.

The countries to which the Canadian Merchant Marine is bound are the British West Indies, China, Belgium, France, Britain and South America—opportunities for the purchase of many commodities which Canada does not, or cannot, produce herself. We must not simply sell to these people—we must "trade" with them.

The revision of our buying and selling figures on this basis would result in the advance of the Canadian dollar to par value in the United States and have a most salutary effect on the financial condition of our nationally-owned railroads and ships by diverting to Canadian ports a much larger proportion of the tonnage which for years has entered and left Canada through the ports of the United States.

What Warships Cost

Enormous Burden Imposed on World For Upkeep of Armaments

The super-cruiser Hood, of the British navy, represents a capital cost of \$10,000,000 and requires an annual outlay of nearly \$2,000,000 for general maintenance. Her fuel and lubricant alone absorb \$200,000. When interest on cost is added to upkeep the figures are really staggering; and it is this tremendous drain on national resources which makes disarmament imperative. An example of the prodigious cost of armaments and defense measures as a result of which afforded not long ago, when Senator Borah quoted figures to show that the United States expended by the United States on that account for the fiscal year ending March next the colossal sum of \$100,000,000 for the replacement of \$775,000,000 per annum against Germany, and which it has been urged no nation could possibly meet.

Half the money, however, expended by the leading powers on their armies and navies could be saved, the whole financial situation, in any such a man's mind must be! He who changes his mind to harmonize with circumstances though, is spiritually clean and fresh, is living according to the laws of spiritual hygiene."

For Fifty Years

Major Sigg's Syrup has been the world's remedy for indigestion, and it is still the best and cheapest of stomach and liver tonics.

The medicinal extracts of varied roots, herbs and berries rendered the natural efficiency of the digestive aids and has been the cause of numerous cases of pain after eating, headaches, flatulence, acidity, biliousness and constipation. Sold in 50c. and \$1.00 bottles of drug stores.

"YOUR TEETH"

THE HUMAN MACHINE

By REA PROCTOR MOGER, D.D.S., M.D., Editor of "Our Hygiene"

Have you ever considered what a remarkable machine you are?

Think of the wonderful mechanism of your hand, your wrist, your arm! Think of the powerful muscles, the slender tendons, the right bones, delicate nerves, the efficiently distributed arteries and veins. All of these and the rest of your marvellous body do their work at your slightest thought. In fact, the machinery of your body makes repairs nearly all of its own injury—takes care of its own growth and renews its worn-out parts. Nature makes a complete effort to provide you with a perfect means to carry on your business and to enjoy the pleasures of life.

In order for your body to do these things it must have fuel in the shape of food and it is up to your mouth to receive and prepare this fuel. If your food is of the very purest and most appetizing variety, carefully prepared and tastefully served, it would seem that that would be all that is necessary.

But if that same pure food is placed in an infected mouth and is then thoroughly corrupted, by having mixed with it many types of bacteria, and the poisons resulting from bacteria, would it not seem that the damage to your system would be very serious?

The condition known as neuritis, from which many people who use their hands in highly trained work, such as telegraphers, typists or pianists, frequently suffer, is caused by overwork and infection. The overwork reduces the vitality and resistance of the nerves and their sheaths, and infection in the great majority of cases comes from abscesses about the teeth. This is only one of the many painful and serious derangements of your body machine that can come from diseases in the mouth.

If you owned a fine piece of machinery that got out of order, you would call in, first, a good general mechanic.

CLARK'S CORNED BEEF

A good nourishing food, ready to serve and inexpensive. Try cold or heat in slices and serve with fried eggs instead of ham. No bone, no gristle, no waste and every can with the Government guarantee of purity. Clark's Good Things are made from Canadian Farm Produce and sold everywhere in Canada.

—and then men especially skilled in the various parts of the machine that required special training to understand properly.

Why not be as careful of your own body? The mechanical principles upon which you are built and by which you live are just as true as those upon which you run your automobile. But as your body is the most complicated machine with which you will ever come in contact, it requires very high order of intelligence in the "major man" to diagnose your troubles.

But no diagnosis is considered complete these days without the advice of that specialist upon the mouth—the dentist.

Paving of the Clay Pipe

Old-time Pipe is Becoming Extinct in England

The clay tobacco pipe familiar to many generations, is passing in England. The wooden pipe and greatly increased cost of clay are said to have led to the industry.

Preparations have been made for the closing down at Bristol, after an existence of 200 years, of a firm engaged in the making of these pipes and believed to be the oldest house in this country, if not in the world. Many years ago there were 14 manufacturers of clay pipes in one parish of Bristol. One by one they have dropped out.

Who is It? Married

"Who is it?" barked the boss. "Guess who," cooed a feminine voice over the phone.

"My guessing days are over, miss. I'll call one of the junior clerks."

Developing Grain of Wheat

In One Year a Single Grain Produced 322,000

An experiment to show how the focus of a grain of wheat has just been concluded at the Official School of Agriculture at Valladolid, Spain, with the result that one grain produced in a year 322,000 grains.

At the end of July 100 grains were sown separately. At the end of September the grains had developed an average of 12 shoots each. These were cut and transplanted and by the end of October each cutting furnished an average of eight shoots, which produced fifty-five ears each, and each ear an average of fifty grains.

A simple multiplication sums shows that each of the original grains planted reproduced itself 12 by 8 by 55 by 50, making a total of 122,000 grains.

Strathmore Trading Co., Limited

G. Frank Butler, Manager

Amateurs Organize

At a meeting held at the home of Mr. and Mrs. Lomeli, the amateurs decided to form themselves into an organization and will hereafter be known as "Strathmore Dramatic Society." The following officers were elected: President, G. H. Vickers; Sec. Treas., Miss A. James; Executive Committee, Miss E. Fairlie, Mrs. D. French, L. B. O. Lomeli, C. S. Lait. The society avails and will welcome any who are interested to join them.

ROSE CARNIVAL AND DANCE

The newly formed Strathmore Dramatic Society are holding a Rose Carnival and Dance on Friday, February 20th, in the Memorial Hall. This will be a social night in many ways. The idea behind this carnival is first to provide rental for the hall, and to put on a night of pleasure for everybody, they do not expect to make any money out of this event and are laying plans with this end in view. There will be many new and attractive features and something for everybody to take pleasure in, the event can be looked forward to as the event of the season.

There will be a seven-piece orchestra in attendance which will include something new for Strathmore, seven ladies and gentlemen will act as M.C. The date is noted and word for sale and posters containing further particulars.

Popular admission charges will be the order.

Red Cross Appeal

In order that they may carry on the work of supplying clothing relief to the many needy citizens of the Province, a week which has been requested of them by the Government, the Red Cross Society is making an appeal for funds. This appeal is supported by Premier Greenfield in a letter sent to the various newspapers of the Province.

The Red Cross has in hand the tremendous work and needs funds in order to successfully carry through until the end of the winter. Over 8,000 individuals have been helped by the Society to date and the applications continue to pour in.

Donations to the funds should be made to the Strathmore Red Cross Unit, Miss Phyllis Luck, secretary; or to the headquarters, O'Sullivan Block, Calgary. The sum of \$1500.00 has been allotted as Strathmore's portion to be raised.

The following acknowledgements have been made:
Previously acknowledged, \$1028.25
Ghost Pine U.F.A., 2.00
2 E. Stevens, Calgary, 10.00
Ladies Aid, Eye Hill, Provost, 50.00

Total to date \$120.25

LET THE PUBLIC KNOW

President J. W. Knapp, of the 30-Elgin State Retail Dry Goods Association, urged merchants at their convention in Kalamazoo, recently, to take the public into their confidence. "We should ask each other," he said "are our prices right? If they are right we should let the people know it."

This is good advice, as every wise business man must know. The condition today, as pointed out by Mr. Knapp, is a peculiar one. The country has passed through a period of high prices, due to no fault of the average merchant.

Now we are down to bed rock again and it is perhaps only natural that there should be some uncertainty.

The way to overcome this feeling is to "show the people." That's what the successful merchants are doing in their advertising and through statements in the newspapers.

"If our prices are right, we should let the people know it," says Mr. Knapp.

That's a point often overlooked. The merchant has nothing to conceal. He knows his price is right. He is honestly trying to sell at the lowest margin of profit, but he often fails to let the people know it.

As Knapp explained when told a barking dog never bites, "I know it, you know it, but the dog doesn't know it."

Vancouver, B.C.—The total wheat loaded for export from Vancouver this season has now reached 100,000 tons, of which two-thirds is for England.

KEOMA ITEMS

The population of Keoma is increasing rapidly. Mr. and Mrs. MacNeil are the proud possessors of a daughter also Mr. and Mrs. Ralph McKay, a daughter and Mr. and Mrs. G. Koch, a son, all born in 1922. Lets go Keoma.

Mr. H. Williams, president of the local U.F.A. and S. B. Alder, secretary were delegates at the Convention last week.

Mr. R. Kempton was a guest at the Old Timers' Reunion in Calgary. Mrs. A. Remmler is undergoing an operation at Calgary Holy Cross Hospital.

Miss Marie Hagan made a trip to Calgary last week to have some dental treatment.

What's the matter with our little city? It's so dead we hear someone made Harold Dugdale's team of oxen run away to cause some excitement.

The school has not been opened since Xmas.

HERVEY NEWS

Mr. Wm. Laycraft had the misfortune to lose a valuable horse on Sunday last. The horse dropped dead while walking. It was supposed to have palpitation of the heart. This relieved Mr. Laycraft of his best steed but leaves him with the valuable papers.

"Twice content and presently!"

The difference sure is small.

The optimist, the doughnut sees.

The pessimist, the hole."

This is a time when men are tired, some of them beyond endurance, each of us are instincts of some sort. At such a time it is human instinct to cry out, "I am tired, I am tired, I am tired."

An important party of the neighbors was held at the Sheher residence on Tuesday, January 24. An evening of amusement, interspersed with good talks were enjoyed.

The little word "please" costs the people of Canada over \$17000.00 annually in tolls, over the wire. It is an outstanding fact that as a people, we insist on being courteous, regardless of the cost.

NEXT WEEK WITH THE CHURCHES

UNION CHURCH SERVICES.

Local Notes

OF LOCAL INTEREST
Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 68

Though this is hardly tennis weather the tennis club is already active, and re-organized last week. They intend holding a big whit drive and dance in the Municipal Hall on Thursday, March 7.

Three wage earners were heard before the local J.P. Court on Saturday. The employer admitted the amounts owing, and promised to pay whenever some expected funds were available.

1922 is now starting on its second month, and every motor car has to have a 1922 license from now on, under the certainty of being haled before a J.P. if this is not attended to immediately. Orders have been received from A.P.P. headquarters to prosecute all offenders.

The 1921 audit of the Bow Valley Municipality is now being mailed to the ratepayers, in order that they may become acquainted with the finances of the past year before coming to the annual meeting on February 26. The statement shows a satisfactory condition of affairs, despite the present financial stringency.

The U-Gu-Gu Girls wish to point out that their Masquerade dance on February 14, though it is necessary to have a mask, it is not necessary to have a complete masquerade costume. So that no one need be deterred from the want of a costume from attending the same.

The U.F.A. meeting that was to have been held on Saturday of last week has been postponed till Saturday of this week, the severe weather on Saturday last making it impossible for many to get into town. The executive trust for a large attendance this coming Saturday.

Mr. P. Sidam, of Glenora, was a visitor to Strathmore during the week-end. We understand he will be farming land near Strathmore this year.

Strathmore is to lose Mr. Liggett, Inspector of Schools, at the end of this month, he having been transferred to High River. Mr. and Mrs. Liggett were very popular locally, and their departure will be much regretted. In future Strathmore will form the eastern boundary of rural inspection with headquarters in Calgary.

Two Namsa men clashed in court lately regarding the possession of a Christmas turkey, but the evidence being very indefinite, the case was dismissed.

Nurse Hunt, of Strathmore Hospital staff, was called east last Tuesday owing to the illness of her sister in Winnipeg.

No hockey fixtures have been arranged as yet for the coming week, though Manager McFarland is in communication with both Besenau and Glenora endeavoring to arrange a match.

The illustrated lecture "Ben Hur" held in the Memorial Hall on Monday evening, was well attended despite the severe weather. Mr. Williams' ability as an elocutionist is too well known to be commented on here. The slides were beautiful specimens of art.

The various school children who gave the songs and choruses sang very sweetly, and Miss Georgie Weir, the juvenile soloist, drew the applause of the audience. Mr. L. B. O. Lomax was in good voice in his rendering of "The Lost Chord". Miss Eleanor Sawyer performed the accompaniments in a very capable manner.

Mr. Jack Crawford was home last week from Washington on a visit to his parents, Mr. and Mrs. Tom Crawford.

At the Memorial Hall, Wednesday, February 8th, "The Jackline", a small town story set in the Blue Ridge Mountains, taken from the famous novel by O. G. Read. This book is now on sale at Marshall's Drug store and everyone should see this thrilling picture and read the book. Don't miss this picture. Regular prices.

Our store will be closed each Wednesday afternoon, from 1 p.m., until further notice, excepting on weeks on which there is a legal holiday.

STRATHMORE'S DEPARTMENTAL STORE

The Guardian: The rural municipality of Hopedale in the south-east of Alberta has engaged the services of Dr. John Fyfe as medical officer for the municipality. He will reside at Hilda and his salary will be \$5,000 per annum. His services will be free to every resident of the municipality. This is rather an innovation and yet it, or something like it, should be introduced in many municipalities. It is to the state's advantage to keep its people well.

The Rockyford school was closed by Dr. Tiffin, medical health officer, owing to the fact "that there is a lot of whooping cough and chicken pox amongst the children of the village. It is so bad that conditions will be such that school can be commenced again on the 30th."

The bad weather of the past week has completely tied up the road between Strathmore and Calgary. The Interurban Express, the new venture which commenced operations two weeks ago, made good time up till last Friday, but since then the roads have been impassable. The responsibility for keeping this road up lies with the provincial government, and it should be possible for them to keep important arteries of traffic such as the main highways fit for travelling the year round.

Toronto, Ont.—By process of adding together successive census bulletins Ontario's population is figured out at about 2,529,064. On this basis the increase in population since the 1911 census is 401,767 or 18.80 per cent.

Cohalt, Ont.—The Hollinger Gold Mine is now producing at the rate of \$11,000,000 a year, according to a statement made by A. F. Brigham, manager, before the American Association for Advancement of Science.

The Ladies Auxiliary to the G.W.F.A. will hold their next meeting in the Memorial Hall on Wednesday, February 8th, at 3 p.m.

A Panty Store will be held in Garrett's store on Saturday, February 11, from 3 to 6 p.m. by the Anglican Ladies Guild. 8-2-11

Serving the Traveller at Windsor Station, Montreal

View of one of the counters of the new service depot for the accommodation of the travelling public, opened in one of the main entrances to Windsor Street C. P. R. Station, Montreal.

BY COURTESY OF C.P.R.

The Canadian Pacific Railway has just completed the remodelling of the main entrance to the Windsor Street Station in Montreal. Some time ago the Natural Resources exhibit in one of the entrances was dismantled and enlarged, many new products of the country being added so that now it is one of the finest exhibits of its kind in the world. Hitherto the spacious main entrance which in years gone by was part of the ticket office, was used merely for traffic, a large space on each side being more or less bare ground.

With a view to providing increased facilities for the convenience of the travelling public the space that was formerly unused in the main entrance has been converted into a service depot. Here persons hastening to a train or returning from one may apply themselves, with various requisites without having to walk an extra step outside the building, or take the trouble usually taken to procure these necessities. The new departure might be called a service-on-the-way depot.

Not one inch is taken from the passage way, but on each side of the formerly unused space a beautiful counter and exhibition shelf have been placed. The general furnishings of the depot are of the prettiest and most artistic design. Beauty and utility went hand in hand in the construction work. A special feature is the electric lighting. A number of artistic lamps hang from the arch above, while the counters and shelves are illuminated by a system of hidden lights whose rays, without any glaring effects, light up the station with the most pleasant lustre.

The articles sold in the service-on-the-way depot will be confined to those that are usually required by tourists and other travellers.

The greatest pains have been taken to ensure that all articles will be preserved in the best condition, and a number is provided for preserving the tobacco, cigars and cigarettes. The heating system is also perfect. The depot will be open all day and all the evening—all the time it might be required for the convenience of passengers to and from the trains.

The new depot will not in any way interfere with the existing magnificent stand in Windsor Street Station which will continue as usual. However, it is likely that the new service-on-the-way depot will considerably relieve the congestion that there used to be around the new stand, particularly at train times.

Though always imposing, the appearance of the entrance to Windsor Street Station has been considerably improved by the remodelling that has recently taken place. In the most delightful atmosphere, those who have some moments to spare previous to train departure can amuse and interest themselves in viewing the wonderful exhibition of natural resources in one of the entrances.

In selecting the books which will be available for the travelling public, it has been decided to pay special attention to the fiction by Canadian authors, a policy which is being adopted generally all over the Canadian Pacific system.
